

“2020-2025 Draft Plan” transcript

As your State’s electricity distributor, SA Power Networks plays an important role in the community delivering electricity to more than 860,000 homes and businesses across the State.

Over the past year we have been working with our customers and stakeholders as we plan for the future.

We have now released our Draft Plan which outlines how we will manage the electricity network from 2020 to 2025.

We welcome your feedback, please visit talkingpower.com.au where you can download the full plan and submit your feedback online.

Thank you!
