

## Appendix G: Augmentation Rates

**Table 6 – Augmentation Rates**

Augmentation Rates (\$2021/22 - Exclusive of GST)					
Network Element	Residential		Non-Residential		Comments
	Country (\$/kVA)	Metro (\$/kVA)	Country (\$/kVA)	Metro (\$/kVA)	
<b>Standard Rates</b>					
Low Voltage	383	383	265	265	Applies if connection is via shared low voltage mains, e.g. connected to the terminals of a low voltage service pillar.
Distribution Transformer	378	378	261	261	Applies if connection is supplied via the low voltage transformer terminals of a shared transformer.
Feeder High Voltage	250	250	172	172	Applies if supplied via a connection to a shared high voltage feeder or via a dedicated transformer.
<b>Additional applicable rates</b>					
Zone substation	390	290	268	201	Additional to the above amounts and applies if the demand exceeds the Zone Substation capacity by >10%.
Sub-transmission line	610	201	421	139	Additional to the above amounts and applies if the demand exceeds the Sub-transmission line capacity by >10%.

**Notes:**

1. The augmentation rates in Table 6 will increase annually in-line with the annual consumer price index increase as published by the Australian Bureau of Statistics (ABS) for All Groups, CPI, Australia, Weighted Average of Eight Capital Cities for the (March) quarter.
2. GST will be applied to the listed rates as part of the Negotiated Connection Offer.
