

How do I find a site in SmartInstall so I can close it out once commissioned?

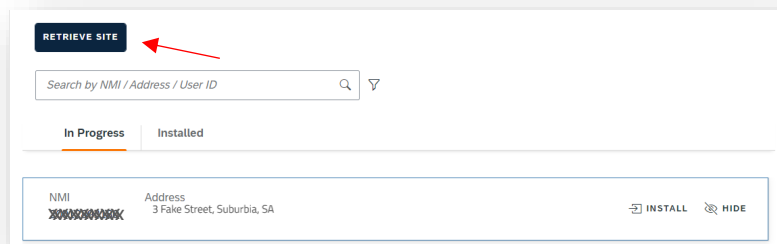

From the dashboard

If you have created the application for the site you are installing, the site will show on your dashboard, simply click the “Install” option.

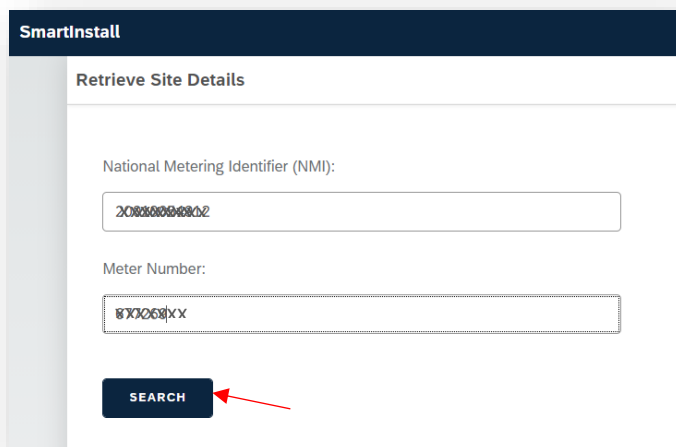

From the “Retrieve” page

1. If the site does not appear on your dashboard, click the “Retrieve” option

2. Enter the NMI and meter number, then click “Search”

3. If the address displayed is correct, click next.

If the address is not, click no to be able to send an email giving the correct address, then continue with step **Error! Reference source not found.**

Retrieve Site Details

National Metering Identifier (NMI):
XXXXXXXXXX

Meter Number:
XXXXXXXX

SEARCH

Address:
1 Fake Address

Are the address details correct?:
 Yes No

EXIT NEXT >

4. Proceed to close out the application
