About the Portal

SA Power Networks has introduced a new portal for embedded generation applications. This is the first part of our planned ongoing improvements. Future enhancements are planned that will continue to make the process easier for you.

You will need to register (once off) for access to the portal.

How things will change and how this will help you

For Applicants

Create your applications through SmartApply:

- A more user-friendly application form
- Save the application as draft and continue later
- Log in at any stage and check on the status of the application
- User guides are available

For Installers

We will ask you to close out your installation using SmartInstall. The form is easy to follow and prefills detailed information from the standards for you, tweak if required.

- User guides are available

More information

User guides can be found on the SA Power Networks website here.

If you need more information, or wish to provide feedback, please feel free to contact us on 13 12 61 or newenergyservices@sapowernetworks.com.au
