External Contracting Companies - Contact List

This document provides a contact list of external contracting companies (e.g. Designers/Consultants, Electrical, and Civil) that have access to SA Power Networks' design standards and E-drawings associated with the installation of electrical infrastructure. This list is provided for reference purposes only and does not necessarily reflect all contracting companies that may have suitable accreditation.

Please note that the external contracting companies listed in this document are not necessarily part of SA Power Networks' approved procurement or categorised panel listing.

Customers/landowners are under no obligation to engage any of the external contracting companies listed in this document. If a customer/landowner chooses to engage any external contracting company (whether listed in this document or not), the engagement will be entirely at their discretion and under their control. SA Power Networks has no involvement in, or responsibility for, any such engagement.

Any contractual arrangements will be solely between the customer/landowner and the external contracting company. SA Power Networks does not warrant, guarantee, or make any representation regarding the quality, performance, or suitability of the works or services provided by any external contracting company.

It is the sole responsibility of the customer/landowner to conduct their own due diligence and ensure that any external contracting company they engage has the appropriate skills, licences, insurances, and qualifications to perform the required works. The customer/landowner is also responsible for ensuring that the works performed by their chosen contractor(s) meet all SA Power Networks' requirements, including any relevant project specifications.

SA Power Networks accepts no liability for the performance, quality, or outcomes of any works undertaken by external contracting companies, whether listed in this document or otherwise.

Designers/Consultants

Electrical Contractors - (Notes)

1. It is the responsibility of the customer to ensure that the construction contractor that is selected has the following:
   - The appropriate contractor's license and the electrical workers are registered under the Plumbers, Gas Fitters and Electricians Act 1995 for various facets of work, ie: Cable Jointing, Cable laying, Cable testing
   - The appropriate Public Risk and Indemnity cover suitable to SA Power Networks
2. The SA Power Networks will not process SA Power Networks Certificate of Electrical Compliance if a company cannot provide verification of suitable insurances and licenses:
   - Accreditation is in relation to a contractor's ability to undertake work on SA Power Networks existing / energised asset

The use of this document is subject to the conditions stated in SA Power Networks' disclaimer.
