

How to set up a Job Alert

If there are currently no job vacancies with SA Power Networks in the field that you wish to apply for, you can set up a 'Job Alert', which will send you an email when a job is advertised that matches your search criteria.

To set up a Job Alert:

Start typing the title of the job you are interested in into the 'Job search' box. If no current vacancies match your search, the 'Send me jobs like these' field will appear.

The screenshot shows the SA Power Networks website header with the logo and contact numbers: "Faults and emergencies 13 13 66" and "General enquiries 13 12 61". Below the header is a navigation bar with "Careers", "Current vacancies", and "Existing applicant login". The main content area is titled "Job search" and features a search input field containing the text "Apprentice". Below the input field is a suggestion: "e.g. 'Safety, Risk and Compliance Manager, Keswick'". A link with an envelope icon and the text "Send me jobs like these" is circled in red. To the right of the search field is a button labeled "Existing applicant login". Below the search field is a "Search results" section with columns for "Position", "Location", and "Closes", containing the message "No jobs matched your search." To the right of the search results is a "Refine Search" section with "Work type" (Casual (0), Full time (0), Full time (7.5 hrs) (0), Full Time (8.0 hrs) (0)) and "Locations" (Adelaide Metro, Elizabeth (0), Keswick (0), Richmond Road (0)). At the bottom left of the search results area, it says "Powered by PageUp People".

When you click on 'Send me jobs like these', the following will appear. Enter your email address and click 'subscribe'. An email will be sent to you to alert you to any future vacancies that match your search.

 [Send me jobs like these](#)

We will email you new jobs that match this search.
