

SA Power Networks - Office Sharing Register

The following office locations may be shared in accordance with the Australian Energy Regulator’s Ring-fencing Guideline (**Guideline**) clause 4.2.1.

Office Location	DNSP Staff	RESP Staff	Ring-fencing controls	Exemption/Waiver
SA Power Networks Head Office	SA Power Networks staff performing corporate, and engineering functions.	Enerven staff may visit the corporate office but are not co-located within the SA Power Networks Head Office.	Ring-fencing training.	Guideline 4.2.1 (b)(i)(a), Enerven staff when visiting SA Power Networks Head Office do not have access to electricity information.
SA Power Networks IT Corporate Office	SA Power Networks staff performing IT and other corporate functions.	Enerven support and engineering staff may be co-located in SA Power Networks IT Corporate office.	Ring-fencing training. Enerven staff will not be located near SA Power Networks’ staff with access to electricity information.	Guideline 4.2.1 (b)(i)(a), Enerven staff when located at SA Power Networks IT Corporate Office do not have access to electricity information.
Inner Metropolitan Depots	Various staff undertake field, corporate and engineering functions at inner metropolitan depots.	Enerven staff may be co-located. These staff predominately perform Other Electricity Services and Non-Electricity Services, and may be called upon to assist with SA Power Networks regulated works (e.g. Emergency Response).	Ring-fencing training	Guideline 4.2.1 (b)(i)(b), Enerven staff where required to assist SA Power Networks have access to electricity information but do not have in performing their roles and duties any opportunities to use that electricity information.
Outer Metropolitan Depots	Various staff undertake field, corporate and engineering functions at outer metropolitan depots.	Enerven staff may be co-located. These staff predominately perform Other Electricity Services and Non-Electricity Services, and may be called upon to assist with SA Power Networks regulated works (e.g. Emergency Response).	Ring-fencing training	Guideline 4.2.1 (b)(i)(b), Enerven staff where required to assist SA Power Networks have access to electricity information but do not have in performing their roles and duties any opportunities to use that electricity information.
